

Program Associate- Math Coach

SEED Schools was established in June 2013 with a vision to provide high quality education at an affordable cost. The SEED team consists of passionate, dynamic young people dedicated to improve student learning outcomes through effective curriculum, innovative teaching methods, and efficient school operations. SEED currently runs three schools in Hyderabad and is now expanding to a chain of high quality schools in the affordable private school (APS) sector. At the early stage of its operation, the organization provides its employees a great platform for professional growth along with opportunity to create deeper social impact.

SEED is promoted by:

Harish Mamtani (www.linkedin.com/in/harishmamantani/)

Manish Kumar (<http://in.linkedin.com/in/manishkumarsah/>)

Project: Hiring a teacher with right content knowledge and pedagogical skill set is a pressing challenge faced by most of the low income in India. Lack of strong teacher in classroom is increasing the student gap in higher grades, leading to discontinuing the education. SEED aims to tackle the problem of students' learning gaps by developing innovative technology driven teaching methodologies (like SEEDDLE) to run remedial programs and by implementing technology oriented academic programs (like Khan Academy). Designing new programs and monitoring existing program are the key focus area.

Primary Responsibilities:

- Monitor and track secondary math academic programs in different schools
- Observe math teachers teaching in the class and provide feedback
- Train teachers in content and general classroom management
- Provide teachers with resources that help them teach effectively in class
- Create assessment to monitor the progress of the students
- Assist teachers in planning lessons, and monitor their progress
- Develop new programs that are scalable in different schools

Qualification and Experience:

- At least 2 year (higher would be preferable) of experience in teaching/ content development/ education sector
- Graduate in any field with math and science major. Passion for math in general would be advantage
- The person should be self-driven and is expected to lead the initiative even with limited support.

Knowledge, Skills and Abilities:

- Strong content knowledge in math

- Excellent understanding of teaching and designing assessments
- Exceptional written and oral communication skills in English
- Good with computer tools like Microsoft Office, and basics of networking and connectivity
- Ability to work independently and work closely with teachers and principals.
- Must a growth mindset
- Excellent team player
- Comfortable with travelling within the city.

Please send your resume to Arti at careers@seedschools.in

The selection process will involve 2-3 rounds of interview (in-person/telephonic) and a visit to SEED Schools office in Hyderabad for the shortlisted candidates. There would be a technical round also where the required skills will be tested.
